KICKSHAWs David L. Silverman

Sandwich Crypt: The tardy worm avoids the early bird.

Interlingual Word Play: Spanish Y is Italian E, Polish I or Czech A; the English cognate is and.

The business establishment was a restaurant in rural Denmark, and (appearances notwithstanding) the sign is not in English at all, but in perfectly grammatical and idiomatic Danish. While many of the Danish words have close English cognates, none of them means what it appears to in "English".
